

*"The smallest act of kindness is worth more than the grandest intention."*

Dear Parents,

Floods have swept across northern and north eastern states of India – parts of the country are badly affected, the latest being the cloudburst at Amarnath. Many people have lost their homes, loved ones livestock, agricultural land, infrastructure- resulting in huge losses- personal and financial. The situation is worsening and together we need to stand up to the natural calamity. There is every possibility that vector borne diseases will result in epidemics in the flood inundated areas.

**Bal Bharati Public School, Noida** has joined hands with **Goonj** (a multi-award-winning social enterprise, that works on poverty alleviation, rural development, disaster relief and rehab) to respond to the flood affected people in North east. We all must contribute in every possible way to do our bit.

**Rahat - Floods**
