

REPORT ON “GRAPH IT UP”

CLASS ACTIVITY (CLASS: IV -V)

Date : 13.7.22

Class : IV-V

A class activity ‘Graph it up’ was organized during the Bal Sabha period on 13 July, 2022 with an aim to create an awareness towards logistically collecting and representing data/ datum which was held for classes IV- V with creativity, imagination, talent and fun as the main ingredient. This initiative was taken as a step to enable the students to strengthen and sharpen their analytical skills. The activity involved each and every student in their respective class room and started with the open group discussion. The format of the activity was introduced in an easy to understand and in comprehensive manner. The students collected the information about the top five populated country. The information was then represented in form of a bar graph.

This activity focuses on students' learning around the world population and includes a bar graph to document the increase in the world's residents. The response from the students was of great enthusiasm mixed with curiosity.
