

OZONE DAY
16TH SEPTEMBER, 2022

“Don't let the future go up in smoke. Save the Ozone. Save a life”

The ozone layer, a fragile shield of gas, protects the Earth from the harmful portion of the rays of the sun, thus helping preserve life on the planet.

World Ozone Day is observed on September 16 every year to spread awareness among people about the depletion of Ozone Layer and find possible solutions to preserve it.

The theme for the International Day for the Preservation of the Ozone Layer, to be marked on 16 September, 2022 is **Montreal Protocol@35: Global Cooperation Protecting Life On Earth**.

The theme recognizes the wider impact the Montreal Protocol has on climate change and the need to act in collaboration, forge partnerships and develop global cooperation to address climate challenges and protect life on earth for future generations.

To mark the occasion, the school has planned activities based on the ABOVE MENTIONED THEME.
