

ENVIRONMENT CLUB REPORT
SUP ACTIVITY

Under the aegis of the Environment Club, a SUP Campaign was organized from 24 July to 24 August, 2022. Activities organized were Paper decoration (Class I), Collage making (Class II), Eco-brick making activity (Class III). Students of classes VI, VII, and VIII went for a board display activity which were learning corners for all. Students of classes IX and X prepared cotton bags and paper bags. Surprise checks have been conducted every week by the Green Ambassador of the Environment Club. Students were made aware of the ill effects of single-use plastic and guided not to use it in their lifestyle. An online quiz was conducted for all the students to bring awareness. Students were shown the process of manufacturing SUP products and then they were told to analyse the pros and cons of SUP through the screening of a movie.

APPEAL FROM ENVIRONMENT CLUB

**एक ही संकल्प हमारा,
 प्लास्टिक हटाना लक्ष्य हमारा!**

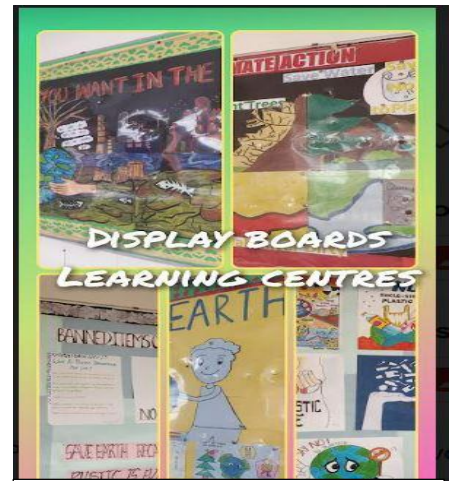

Dear Stakeholders,

Our cities are littered with non-biodegradable plastic material, and it is greatly adding to environmental stress and degradation. The key ahead is to ensure that disposable plastic items in our daily lives are recycled or disposed off safely. Microplastics are evidently everywhere now and their influence is affecting not just people's lives but also the environment. More than 40 percent of all plastics are made into single-use products in India. This impact and implications of microplastics on the health of the planet and its inhabitants are insurmountable. Our landfills are exploding and our dumpsites are burning more than ever and our waterways are more choked with plastic pollution. These address plastic not only have the capacity to cross-continental borders but can also reach our bloodstream.

In a move that could have a significant impact on checking plastic pollution, India banned the use of 'single-use plastic' from July 3, 2022. The Ministry for Environment, Forest and Climate Change issued the notification last year in August announcing a ban on single-use plastic effective from July, 2022. The assigned banned items are:

S.No	Item	Effective Date
1	Plastic Carry Bags (other than 100% Recycled)	01/07/2022
2	Non-recycled Carry Bags (other than 100% Recycled)	01/07/2022
3	Plastic Straws	01/07/2022
4	Plastic Cutlery (other than 100% Recycled)	01/07/2022
5	Plastic Plates, Bowls and Shells	01/07/2022
6	Plastic Containers (other than 100% Recycled)	01/07/2022
7	Plastic Bottles for Water, Beverages/Drinks	01/07/2022
8	Plastic Containers for Food	01/07/2022
9	Plastic Containers for Beverages	01/07/2022
10	Plastic Containers for Food	01/07/2022
11	Plastic Containers for Beverages	01/07/2022

SINGLE-USE PLASTIC BAN

SUP DISPLAY BOARDS

Learners gain environmental literacy and appreciation for nature while hands-on in creativity.
