

‘When we plant trees, we plant the seeds of Peace and Hope.’

The tree plantation drive under the aegis of ‘**MY TREE PROGRAMME**’ was conducted on 2 Sep 2022 with great enthusiasm to make the students aware about their responsibility towards Mother nature and connecting with their roots. The students were educated about the importance of trees in maintaining ecological equilibrium. Moringa plants were planted by the school Principal Ms. Asha Prabhakar along with Ms Bela Mahendru, Ms Jai Varma & Ms Archana Singhal, the delegates of ‘My tree Programme’. A presentation on the activities taken up by the Environment Club of the school was showcased to give an eagle’s eye view to the delegates. The green ambassadors of the school interacted and shared their journey of adopting and nurturing a plant.
