**‘CLIMATE CHANGE CONVENTION
(A NATIONAL EVENT)
REPORT**

“Education is an essential tool in our stand against climate change”

Climate change is an irrefutable truth today, and it is clear that humans are the reason. More severe impacts of climate change will be felt with every passing year. Centre for Science and Environment, Delhi under the umbrella of GSP, believes that the more our educators and students are aware of Climate change, the better position would we be in to adopt sustainable ways of living to mitigate the impacts. In this journey, an invaluable community of educators was invited for attending a Climate Change Convention at Nimli, Rajasthan from the 28th to the 30th of September. The educators were chosen on the basis of who has gone above and beyond not only to build their knowledge on climate change but also to take it to the classrooms. The Convocation was held at CSE’s state-of-the-art residential training facility, the Anil Agarwal Environment Training Institute (AAETI), located a three-hour road trip away from Delhi, in Nimli, at the foothills of the Aravalli, near Alwar in Rajasthan.

The Climate Convention focused on bringing awareness and learning of climate patterns both at the local as well as global levels and bringing sustainable practices to our lifestyles. Centre for Science and Environment honored the educators with special recognition by awarding a Climate Leaders, 2022 memento. **This achievement is another feather in the cap under the able guidance and support of Mrs. Asha Prabhakar, Principal, BBPS Noida.**

THE CENTRE FOR SCIENCE AND ENVIRONMENT TEAM AWARDED MRS NEERJA BHATNAGAR WITH A ‘CLIMATE LEADER MEMENTO
