The United Nations is an organisation whose purposes are to maintain international peace and security. The United Nations Day is observed on 24th October every year and it is a celebration of diversity. It is an official day to appreciate the diversity of cultures, religions, and languages all over the world. On this day, countries come together to spread ideas of peace and harmony among people who originate from various backgrounds. Because the United Nations are famous for their work in disaster relief, humanitarian aid, peacekeeping, and international unity, every year we celebrate its anniversary as a reminder of the importance of - diversity, the cooperative spirit among nations, equality, peace, unity

On the occasion of United Nations Day, an interclass activity was conducted amongst the students of class I – III. They were asked to bring cut outs of hands and each student had to paint a flag of the allotted country on that hand. At the end, those hand cut-outs were joined together to symbolize equality between all the countries. The students were really excited to do this activity and also learnt about different member countries of the United Nations.
