

Bal Sabha Activity
(14.12.2022)
Classes – I - II
THEME: No Excuse, Stop Misuse
Paper Wind Mill/Fan

“A day spent with toys is always a day well spent.”

A class activity was conducted wherein students of class I and II were taught to make simple toys using 3 strips of coloured paper. The students made paper fan using the strips. They rotated the paper fan using pencil and by blowing air on it. The students were really excited and enjoyed a lot while doing this activity.

The students were also taught that they should never misuse the resources which are available to us. For example- We should not waste electricity because it is produced from coal and petroleum and these sources are non-renewable sources of energy. If we waste electricity then, we are wasting these non-renewable resources too which will take decades to form again once depleted. We should use solar energy instead which is the most abundant and renewable source of energy and will never get depleted.

GLIMPSES OF THE ACTIVITY

**PLAY IS THE HIGHEST FORM OF
RESEARCH**

Teacher In charge:
Ms. Ankita Batra

**VIBRANT FACES WITH THEIR VIBRANT
CREATIVITY**

Supervision:
Ms. Vinaya Pujari
Headmistress Primary
