

REPORT ON VIRTUAL INTERNATIONAL COLLABORATION WITH EGYPT

A collaboration steers growth, builds knowledge and upgrades the Global information. It is a way of promoting good coaching and it is an evolution to the education industry. A silo mentality is one of the biggest barriers to educational success. Productivity, engagement and attainment can be achieved through these international collaborations.

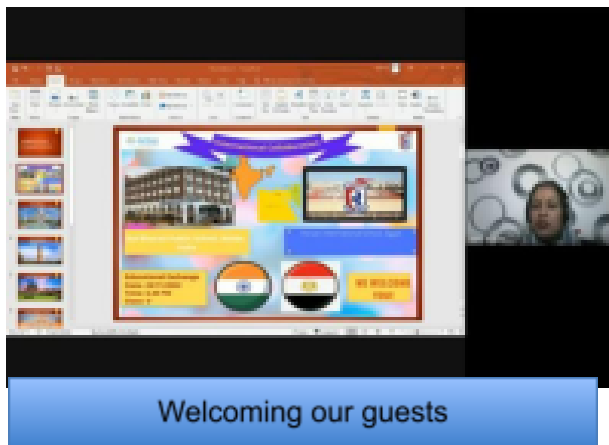

An engaging and interactive collaboration was held on **24th November, 2022** at 5.30 pm IST between Bal Bharati Public school Noida and Forsan International School, Egypt joined by Ms. Hanna (English Teacher) along with the students from Forsan International school and were welcomed by Ms. Vinaya Pujari Headmistress (Primary) and Ms. Smriti Sharma (SST) along with the students of Class V.

The Collaboration started with a virtual tour of our country India and our school BBPS Noida and further it was followed by some ice-breaking session between the students and the members of the faculty.

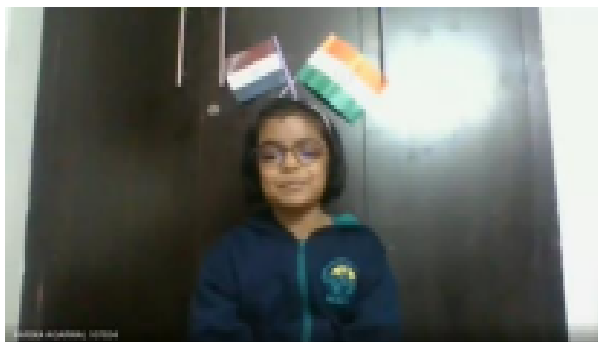

The students enjoyed the tunes of Egyptian and Indian music, also the students of both the countries presented savouring dishes. They were very happy to converse with their new friends across the continents.

The first session ended at a note to meet again but this time we will meet as friends.

HERE ARE SOME GLIMPSES FROM THE EVENT

Welcoming our guests
