

A Report on International Virtual Collaboration with UAE on 18 October 2022

“Individually we are one drop but together, we are an ocean.”

- Ryunosuke Satoro

Effective teamwork is vital in order to reap the rewards of higher productivity, fewer internal struggles and a more enjoyable work experience.

Bal Bharati Public School, Noida believes in fostering and nurturing the intrinsic talents and potential of children. Our aim is to strive towards the holistic development of the students both through curricular and co-curricular activities. We believe that educators need to find ways to connect students from different parts of the world so that they can learn together, share knowledge and develop cultural understanding and relationships.

Our school collaborated with Al Adhwa Private School, UAE in an attempt to enable the students of both countries to appreciate the concept of toy based pedagogy. It is a teaching-learning approach which is based on learning 'through toys and games. 'Integration of toys and games for learning implies that the 'toys' and 'games' are at the center of the curriculum, which helps in simplifying and clarifying new concepts. The collaboration took place on 18 October 2022 where students of class IV interacted with their UAE counterparts and participated in making various simple toys. The students of UAE enjoyed the concept of tik tiki as well as Möbius strip. They were very excited when their date of birth was identified using just number cards. They were keen to know the trick which we promised to explain to them in the next meeting.

All the representatives along with the students participated enthusiastically and made this collaboration memorable and noteworthy for everyone.

Glimpses from the Event

Virtual Tour of School

Magic with Mobius Strips

Enjoying Mathematical Magics
