

## REPORT ON CBSE EXPRESSION SERIES QUARTER IV

***“I dream of a Digital India where knowledge is strength- and empowers the people.”***

**- Narendra Modi**

Prime Minister Narendra Modi made a telling observation about his idea of India: “... every Indian must have a smart phone in his hand and every field must be covered by a drone”. This was a reaffirmation of his commitment that all Indians must be empowered with technology. With the transformative vision to deliver that objective, CBSE announced its fourth Expression Series for the session 2022-23 on the theme ‘*Digital Revolution in India*’. This Expression Series focused on the views of students about how digitalization can bring revolution in the country.

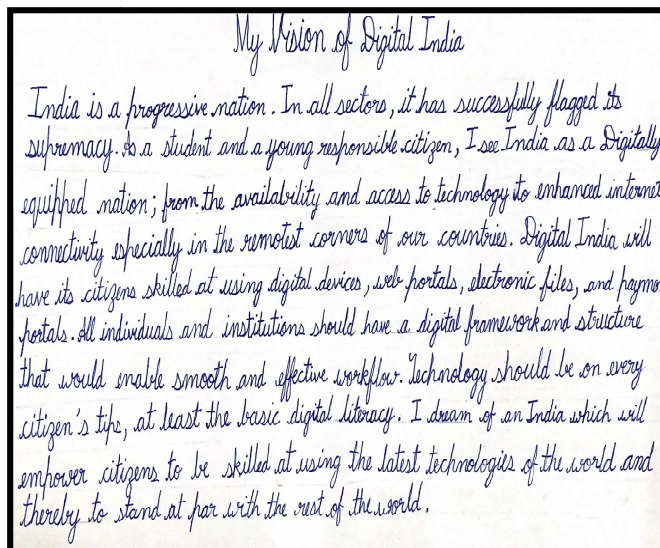

Following the footsteps of CBSE, Bal Bharati Public School, Noida organised the Expression Series activity for classes III and IV wherein the students showcased their linguistic skills by writing on the given topic- ***“My Vision of Digital India”***. India has emerged as the fastest-growing ecosystem for fintech innovations and its digital payments revolution is being appreciated globally. This has made an imprint on the young learners’ minds and they have been envisioning India as a digitally equipped nation and are a firm believer of the very fact that the digital advancements will bring revolution in the country.

With the same vision in mind, the students participated with the belief that by making the technology central, a change will be brought, making our India... a Digital India.

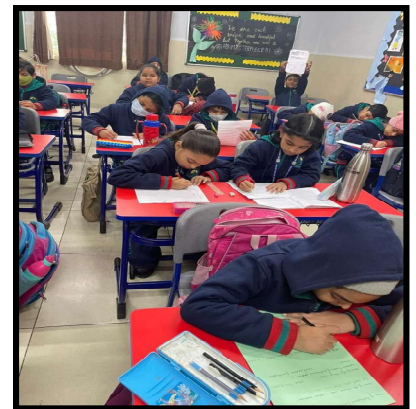

### Here are some glimpses of the activity :

Students anticipating the digital revolutionization!

Visualising the new Digital India.

Young erudites showcasing their linguistic skills!
