

**REPORT**  
**BAL SABHA ACTIVITY (2023-24)**  
**WORLD POPULATION DAY**

**Date: 12 July'23**

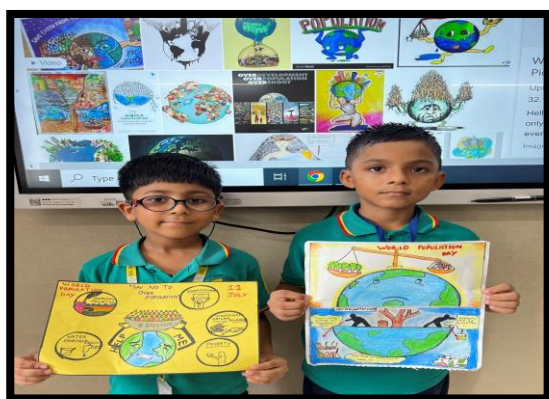

**Classes: I AND II**

**Theme: 'SAY NO TO OVERPOPULATION'**

***“To save the world, to protect the tomorrow, we have to control the population today.”***

Overpopulation is a pressing global issue that arises when the number of people in a given area exceeds the carrying capacity of the environment to support a healthy and sustainable lifestyle. As the world's population continues to grow at an unprecedented rate, it poses significant challenges to the well-being of humanity and the planet.

Overpopulation is a critical issue that affects the well-being of our planet and its inhabitants. As the human population continues to grow at an alarming rate, it exerts immense pressure on essential resources, damages ecosystems, and exacerbates social and economic inequalities.

On 12 July'23 an interclass poster making activity was conducted in which the students of class I and II depicted the sad plight of earth due to overpopulation. The activity commenced with the teacher sensitizing the students on the unfortunate condition of earth which is deteriorating with each passing day due to over population and depleting resources.

The children voiced their views on saving the planet through their creative expression. The purpose of the activity was to sensitize the students to save the resources available on Mother Earth and utilizes them according to needs as we have to save them for future generations.
