

UNVEILING JIO EMBIBE - REVOLUTIONIZING YOUR CHILD'S LEARNING EXPERIENCE
(FOR CLASSES VI – XII)

Dear Parent,

We are excited to introduce an innovative partnership between the Bal Bharati Group of Schools and Jio Embibe, a cutting-edge AI-powered EdTech platform. This collaboration is set to revolutionize the education landscape by providing an exceptional learning experience for our students.

By now, we trust that your child has successfully downloaded the **EMBIBE STUDENT APP**, a powerful tool designed to enhance your child's learning journey both at school and at home. The app focuses on subjects such as Science, Mathematics and Social Studies, catering to students from Classes VI to XII. Your child's school email ID has been linked to the app, and our teachers have provided guidance on using the app effectively in the classroom. It is preferred to download the App on a Laptop.

We are pleased to inform you that the app utilizes an AI-based platform that analyzes your child's learning patterns and preferences. This allows for the creation of personalized learning paths tailored to individual strengths and areas that require improvement.

HERE ARE SOME KEY FEATURES OF THE APP THAT WE WOULD LIKE TO SHARE WITH YOU:

Curriculum Alignment: The Student Embibe App aligns with our school's curriculum and offers a wide range of practice sheets, assignments, and tests that adapt to your child's progress. As your child engages with the platform, it automatically adjusts the difficulty level to ensure optimal learning and skill development.

Interactive Study Material: Both students and parents can access an extensive collection of interactive study material. This approach helps simplify complex concepts, promoting deeper understanding and retention of the subject matter.

Real-Time Progress Tracking: Parents and students can track progress on a topic-by-topic basis in real time through comprehensive analytics and reports. This data-driven approach enables targeted intervention and support, whenever necessary.

Educational Videos: The platform features curated educational videos that reinforce classroom teachings. These videos are designed to enhance comprehension and provide visual aids for intricate concepts.

At-Home Assessments: Parents can administer tests at home using quiz modules to assess their child's learning progress. This feature enables targeted support based on your child's performance.

Question Bank: For students in Classes VI to XII, a question bank based on NCERT Books and Exemplars is available.

Homework Submission: The application allows students to complete and submit their assigned homework and assignment directly through the app.

User Manual: To facilitate easy learning and quick adaptability to the application, we have provided a link to the student User Manual for your reference. You can access it here: [User Manual Link](#)

Parents are kindly requested to grant permission to their children to engage in home work, assignments, practice tests etc. using the Embibe App. Also, please set the guidelines for the duration of usage of the App. Should you have any questions or require further assistance, please don't hesitate to reach out to your child's class teacher.
