“The journey of a thousand miles begins with a single step.”

Traveling is an exciting and fulfilling activity that enables individuals to explore different places, cultures, and experiences. Regardless of whether it's a brief weekend getaway or an extensive international excursion, traveling provides countless advantages and life-altering experiences.

"My Travel Bag" was a delightful adventure for our young learners in Class 1 and 2. It allowed them to explore their creativity, express themselves, and learn essential life skills. As they imagined their trips and packed their bags with excitement, they also learned the value of planning and the joy of anticipation.

A day filled with creativity and joy!

The activity was designed to spark the imagination of our budding adventurers. With the guidance of their teachers, the students embarked on an artistic journey, where they used their creativity to fill their imaginary travel bags with items, they thought was important for a trip.

The students participated in the activity with great zeal and enthusiasm. As the activity began, the children's faces lit up with enthusiasm as they thought about the adventure ahead. With colorful markers and pictures in hand, they set out to create their own unique travel bags. It was a delightful sight to see their young minds at work. This exercise not only encouraged their creativity but also taught them the value of planning and thinking ahead.
