

**Bagless Day Report**  
**Learning Beyond the Classroom**  
**(September)**  
**Class- III**

The recent Bagless Day for class III conducted on 27<sup>th</sup> September 2023 was a spectacular event that allowed students to step out of the conventional classroom setting and engage in a variety of fun and educational activities. These activities were not only enjoyable but also enriched our knowledge and skills. Here's a recap of some of the exciting events that took place on this special day.

### **Poster Making on Mars: English and Noun Exploration**

One of the highlights of the Bagless Day was the "Poster Making on Mars" activity, which was designed to infuse creativity into English learning. Students were given the opportunity to imagine life on Mars and express their ideas through artistic posters. This activity not only ignited our imagination but also helped us understand the role of nouns in forming descriptive sentences. Students used nouns to describe various elements of Mars, such as its landscape, inhabitants and potential challenges for future human colonization. It was an engaging way to learn about nouns in a real-world context.

### **Elastic Band Guitar Making for EVS**

For our Environmental Studies (EVS) session, we embarked on a journey of sound and creativity with the "Elastic Band Guitar Making" activity. Using simple materials like cardboard, rubber bands, and empty tissue boxes, we constructed our own mini guitars. This hands-on experience allowed us to explore sound waves, vibrations, and the principles of music in a fun and interactive manner. We also discussed the importance of reusing materials and reducing waste, aligning with

the environmental themes of our EVS curriculum.

### **Maths Corridor Puzzle Challenge**

The Maths corridor turned into an exciting puzzle paradise for our Bagless Day. The "Maths Corridor Puzzle Challenge" presented students with a series of math puzzles and brainteasers to solve collaboratively. This activity encouraged teamwork, critical thinking, and problem-solving skills. It also emphasized the application of mathematical concepts in solving real-life problems, making math more relatable and enjoyable for all participants.

### **चंद्रयान में बैठकर चंदा मामा की सैर -**

इस विषय पर बच्चों ने अपने विचार 8- 10 पंक्तियों में कक्षा के सम्मुख बोल कर प्रस्तुत किए व एक रंग बिरंगा पोस्टर भी बनाया। इस गतिविधि के माध्यम से उन्होंने पोस्टर के द्वारा अपने मनोभावों को प्रस्तुत करना तथा अपनी भाषा का प्रयोग करते हुए, अपनी शैली में संस्मरण सुनाने का अभ्यास किया और कठिन लगने वाले विषयों को रोचक ढंग से हल करना सीखा। सभी ने बढ - चढ कर हिस्सा लिया और आनंदित हुए।

## **Cleanliness Rally**

Our Bagless Day concluded with a "Cleanliness Rally" where students actively participated in cleaning and beautifying the school campus. Armed with gloves and trash bags, we tackled littered areas, ensuring our school remained clean and green. This activity reinforced the importance of environmental responsibility and community involvement. It also served as a reminder that we should take pride in our surroundings and actively contribute to maintaining a clean and healthy environment.

The Bagless Day activities were a splendid combination of education and entertainment. They provided us with opportunities to learn, explore, and apply knowledge beyond the confines of traditional classroom walls. These experiences enriched our understanding of various subjects while fostering creativity, teamwork, and a sense of responsibility. We look forward to more such engaging and enlightening events in the future, as they make learning a truly enjoyable and holistic experience at our school.
