SCIENCE

DESIGNING A HERBARIUM

A. Can you tell what kind of roots a plant has without digging it up? Is it possible to tell this by looking at the venation?

Observe carefully a variety of leaf samples and make a herbarium by compiling pictures of ten types of leaves in a folder.

Write the following information alongside the leaf:

- a. Common name of the plant.
- b. Type of venation seen in the leaf.
- c. Type of root the plant/tree may have.
- d. Any other interesting feature you notice in that leaf.

Explore the same and explain briefly.

Learning Outcomes: This activity involves a lot of field work paired with research work, which helps in culminating student's interest in plant life in general and structure and function of leaves in particular. Preparation of herbarium enhances their aesthetic, technical and scientific skills simultaneously. This homework can be done on a scrap notebook.

SOCIAL STUDIES

Each student will research on the following topics assigned to them and paste pictures of the same. By using Adobe Express, students will create a presentation (not more than 2 slides) about the Ancient Kings and Kingdoms in India with special reference to-

- Pictures of Kings and Monuments
 - Coins and Artifacts
 - Maps and Interesting facts
-
- Roll No.1- Roll No.15- **SAMUDRA GUPTA**
 - Roll No.16 - Roll No.30 – **CHALUKYAS**
 - Roll No. 31 - Roll No. 48 – **PALLAVAS**

Learning Outcome: Students will learn about ancient Southern Kingdoms which helped in the development of architectural marvels and of our country. They will learn and explore different types of kingdom maps and trade maps.
