

**REPORT**  
**BAL SABHA ACTIVITY (2023-24)**  
**PAPER BAG MAKING**

**Date: 06/12/2023**

**Classes: III - V**

*“Transforming waste into art, stitching a sustainable future with every paper bag.”*

A Paper Bag Making activity was conducted for students of classes III to V to instil environmental awareness and foster creative skills. This inclusive initiative ensured the active participation of every student, prompting a sense of shared responsibility and environmental consciousness.

***Decorating Paper Bags***

Furthermore, students attached handles to their paper bags using materials such as thread or ribbon. This step not only enhanced the functionality of the bags but also provided an opportunity for creative expression. This eco-friendly initiative not only provided an opportunity for artistic expression but also instilled the importance of recycling and upcycling materials.

The process of transforming newspapers into practical and aesthetically pleasing paper bags served as an engaging way to educate students about environmental responsibility. Through this activity, students not only developed their crafting skills but also gained a deeper understanding of the significance of repurposing materials to reduce waste in our daily lives.

In conclusion, the Paper Bag Making activity successfully achieved its objectives by fostering a culture of creativity, environmental consciousness, and active student participation.

(Headmistress Primary)

***Cutting and folding of Paper Bags***

Students get engaged in the practical aspects of the activity which involved cutting newspaper sheets to the desired bag size and skilfully folded them to form the basic shape of a bag. To secure edges, students utilized glue, demonstrating both craftsmanship and attention to detail.

***Eco friendly & Sustainable Paper Bags***
