On Mother's Day, a special gratitude card-making activity was organized for Class I and II students. This event aimed to encourage children to express their love and appreciation for their mothers through heartfelt messages and creative artwork.

A day filled with joy and creativity.

The students were guided by their teachers on how to create gratitude cards. They were encouraged to think about why they love their mothers and what makes them special. Teachers also shared ideas for messages and designs, but the children were given the freedom to create in their own unique way.

The gratitude card-making activity was a resounding success. It not only allowed children to showcase their artistic talents but also encouraged them to reflect on the invaluable role their mothers play in their lives. This activity promoted empathy, gratitude among young minds, fostering a culture of love and appreciation within the school community.
